

# Year One - Spring 1 - Plants

## Key Vocabulary

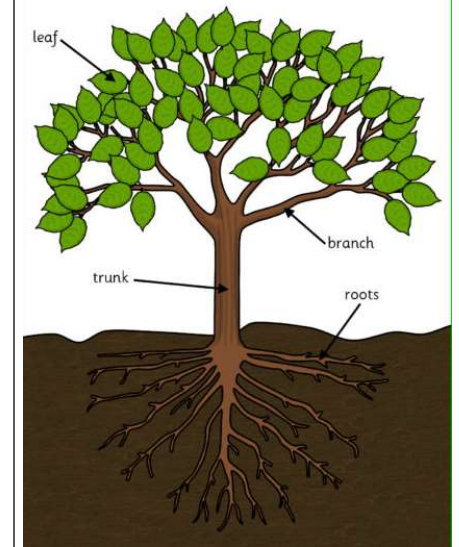

Plant	A flower, tree or vegetable
Weed	A wild plant that grows without being cared for by humans. Usually they are not wanted!
Deciduous	A tree that drops its leaves every year.
Evergreen	A tree that drops a small number of leaves all year round, so they always look green.
Shoot	Part of a plant, above the ground
Root	Part of a plant, below the ground
Stem	Part of a plant, that holds it upright
Leaves	Part of a plant, that absorbs sunlight
Flowers	Attract insects and birds to make seeds.
Petal	The colourful part of the flower
Wild plant	Wild plants grow randomly without human help
Garden plant	Garden plants are grown by a human
