**Knowledge**

Understanding music

**Music** is a combination of sounds that people enjoy listening to. Music can be made with instruments , voices or digital tools.

Music is a type of art that can be heard. It can make us feel different emotions.

Music can be fast or slow, loud or quiet, high or low.

Chrome Music Lab is an application that can be used to make digital **music**.

The different tools on the website allow us to experiment with sounds, patterns and loops.

Rhythm, pitch and tempo

**Rhythm** is the pattern of sounds and silences in music. This allows us to create a **track**.

By using **pitch** and **tempo** we can create music that sounds interesting for different purposes.

Using the digital software, we can **loop** sections to repeat a sound we enjoy.

Chrome music lab

In Chrome music lab, we can use the tool ‘Song Maker’ to create our own music.

 By clicking the different squares, we can make different musical notes.

 Clicking on the shapes below the notes allows us to add in percussion e.g. drums and cymbals.

We can change the instruments that make the sounds, by clicking on the different options in the bottom left.

By moving the dot along the bar, we can change the **tempo**, making it faster or slower.
