

18th June 2025

Dear parents and carers

This email contains some important information to keep our students safe and comfortable during the period of higher temperatures.

- Children should always have a refillable water bottle in school. They may refill this using the water coolers or class taps during school time.
- Children are advised to apply high-factor sun cream before school.
- Children are able to come to school in their PE kits every day, until further notice.
- PE kit should be: a plain white t-shirt, blue shorts or black/grey leggings and trainers.

Best wishes

David Sansom
